

ADD SOME COLOUR TO YOUR WORLD

COLOUR SELECTOR

A LITTLE COLOUR SAYS A LOT

Colour is a language all of its own. It says a lot about you and the project that you designed and built. Colour adds emotion, excitement and flair to any structure, defining the space and complementing the environment where it is used. The Dulux Powder Coatings Colour selector is an easy way to choose the colours you want and products you need for an absolutely outstanding finish.

To find out how you can get the best performance from your coating go to **duluxpowders.com.au** for all the technical stuff.

MAKE YOUR WORK LAST LONGER

To maximise the life of your coating, Dulux recommend the application of a powder coating primer (below table). It should be applied in accordance with Australian Standard AS 3715-2002 for architectural aluminium and alloys, or AS 4506-2005 for other metal substrates.

SUBSTRATE	PRIMER COAT
Steel	Dulux Zincshield®
Zinc Coated Steel	Dulux E-Prime™
Hot Dipped Galvanised Steel	Dulux E-Prime™
Aluminium	Dulux E-Prime™

Worth doing, worth Dulux®.

OUR PRODUCTS

Make a lasting impression.

PRECIOUS®

Pearls For a touch of class, Precious® Pearls are an ideal choice for architectural residential fittings, such as aluminium windows, doors, balustrades and fences.

ELECTRO®

With an ultra low sheen, silky, anodised look, each Electro® colour is cleverly designed to subtly change in appearance as light conditions alter throughout the day. Electro® may be applied to a wide variety of substrates such as architectural aluminium and steel. Electro® provides a classy alternative to anodised finishes.

DURALLOY®

XT & FG High durable polyester, an ideal choice for architectural residential fittings, such as aluminium windows, doors, balustrades and fences. It is equally suited to interior items and other metal substrates. In addition, FG is designed to provide a smooth film over porous substrates.

ARMOURSPRAY®

AG An anti graffiti powder coating that allows the easy removal of permanent markers and spray paint, ideal for items such as street furniture, public transport and playground equipment.

ALPHATEC®

A collection of fun bright colours, ideal for items including playgrounds, electrical cabinets, interior and industrial design and all metal consumer products.

SURREAL EFFECTS®

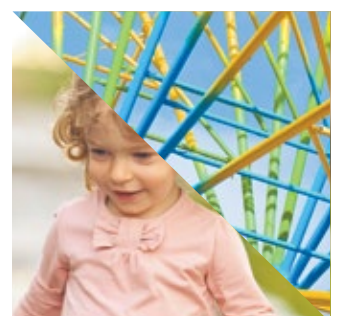

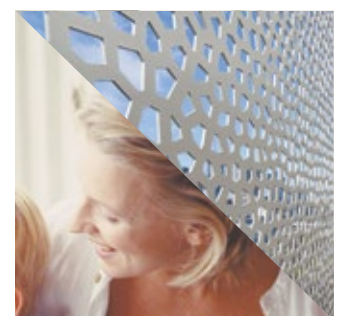

A collection of Mannex® Textures, Scylla® Ripples, Aztec® Hammer and Interior grade Sarouk® Matt Ripple effects, designed to cleverly hide surface defects on fabricated metals, whilst providing interesting tactile surfaces.

ZINC SHIELD®

Zinc based epoxy primer formulated for powder coating applications over blasted steel. Dulux Zincshield® may be used with confidence for improved corrosion resistance and durability.

E-PRIME™

An epoxy primer formulated to give additional protection for sharp edges. E-Prime™ can fill small surface imperfections and may be sanded. E-Prime™ provides a barrier coating for improved corrosion resistance; it is ideally suited to aluminium and zinc castings, hot dipped galvanized and other zinc coated and porous substrates.
